EXPERIENCE

CEO/Founder

CreativePix Entertainment *Dec 2019 - Jan 2022*

- Cultivated forward-thinking, inclusive and performance-oriented business culture to lead industry in innovation and push progress.
- Developed key operational initiatives to drive and maintain substantial business growth.
- Studied market to determine optimal pricing of goods and services and to capitalize on emerging opportunities.
- Maintained energy and enthusiasm in fast-paced environment.
- Created plans and communicated deadlines to ensure projects were completed on time.

Cargo Officer

AirAsia *Sep 2019 - Dec 2019*

- Created documents of load plans, cargo cleanliness inspections and transportation processes.
- Negotiated and arranged transport of goods with the airlines.
- Updated clients on cargo and mail statuses by closely monitoring receipt and tracking processes.
- Directed delivery trucks to shipping doors or designated areas and helped unload and load goods.

Quality Controller

PrimeFocus Technologies *Oct 2018 - Feb 2019*

- Followed quality standards and procedures to minimize errors and maximize customer satisfaction.
- Updated quality control standards, methods and procedures to meet compliance requirements.
- Conducted employee audits to check production performance against process standards.
- Calibrated tools and equipment to meet requirements.

Vendor Management

Amazon *May 2017 - Jul 2018*

- Negotiated complex vendor agreements and built relationships across multiple commodities.

- Strengthened vendor relationships and enhanced revenue streams by applying business development opportunities.
- Helped to research, vet and onboard new vendors, set up contracts and establish connections.

PROJECTS

Shipment Arrival Prediction

Team Member Aug 2021 - Sep 2021

•Evaluation Accuracy: 99% Developed a classification algorithm, to predict the arrival time of orders from E-commerce Company, using the EDA, Logistic Regression and Random Forest. Used X-Train to train the models .

Detecting Fake News with Python and Machine Learnin

Solo Project Sep 2021 - Oct 2021

Took a political dataset, implemented a TfidfVectorizer, initialized a PassiveAggressiveClassifier, and fit our model ended up obtaining an accuracy of 92.82% in magnitude.

Detecting Parkinson's Disease with XGBoost

Solo Oct 2021 - Dec 2021

Detect the presence of Parkinson's Disease in individuals using various factors. Used an XGBClassifier for this and made use of the sklearn library to prepare the dataset. This gave an accuracy of 94.87%.

EDUCATION

Data Science Certification

ExcelR Solutions May 2021 - Nov 2021

- Specilization in Data Science

BSC

Anitech Sep 2011 - Sep 2014

MSC

Jain University Dec 2014 - Dec 2016
