PERSONAL PROJECTS

IP Address tracker using ipify geolocation API

- Search for any IP addresses or domains and see the key information and location. Users will see their own IP Address on the map on the initial page load.
- Experience in consuming RESTful APIs
- Proficient understanding of asynchronous code execution (async, await, Promise)
- Learned to use javascript mapping library, leaflet.js.
- <https://ip-address-tracker-app.vercel.app>

Fylo landing page.

- The challenge was to build to the designs provided for both mobile and desktop versions.
- Experience in building responsive UIs
- Got hands on experience in using SVG images.
- <https://fylo-landing-page-eta.now.sh/>
