OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization.

EXPERIENCE

Endpoint clinical

March 30 2020 - Nov 19 2020

Associate software developer

In the above mentioned company I have worked for 8 months.

and there I had got chance to solve or fix issues of MS SQL server and C sharp,for more than 150 tickets.

unfortunately I didn't get a chance to work on a particular study.

but I have worked for others studies for fixing the enhancements.

SKILLS

Ms SQL server

c#.net

Asp.net

Ado.net

BE in Computer science

Second class

PROJECTS

Students examination portal

I have developed assessment portal using windows form application as front end and ms SQL server as back end,

where admin add the details of the staff and students,

Staff can add the questions with respect to the subject which has been assigned to them

Registered students can take the assessment on different subject, and they can also view results in view result form
