Design Skills

Design Thinking

User Experience Design

Data Visualization

User Interface Design

UX Research

User Empathy

Information Architecture

Wireframing

Prototyping

Usability Testing

As a UI UX designer, I am seeking for a challenging role in which I can fully incorporate my knowledge gained through my work to the best of my efforts in your organization. For me a good design is something which can solve at least one problem.

Working Experience

Product Designer | Koyakal

Bangalore | 1 year

As a Product Designer, I had to research on product categories to be launched, market and consumers. Ideate design and make design decisions for the products from sketch to final prototype. Teach the artisans how to mass produce the design.

Product Design Intern | Cane Craft (Recommended by National Centre of Design for Product Development)

Assam | 6 months

As a product design intern I had to research and design the product categories. I had to take design decisions about the digital branding.

Product Design Intern | Sarthak Sahil Design Co.

Delhi | 4 months

As a product design intern I had to research on the market and design trends. I had to do data visualization of the research to initiate design for product categories. I had to work on the graphics for digital media.
