

UX/UI DESIGNER

SurendarV

PROFILE

To briefly introduce myself am a UX/UI Desginer. My passion is solve problems thought design thinking and ultimately comeup with solutions that makes users happier. I have gained hands on experience of various UX methods of all three phases of user centred design namely research. Design and evaluation I have also get to know different work culture. People and places in Europe,US and India. **I was a part of more than 15+ project specially for UX/UI Design & Research service for both web & mobiles.** Looking forward to work in a competitive environment that enhances overall learning. Seeking an entry-level opportunity with an esteemed organization where I can utilize my skills and enhance learning in the field of work.
