I am a Software Engineer with 2 years of experience in the full software development life cycle from planning to launch. Being worked for different projects helped me to adopt to the changes quickly and made me a mature team worker. Productive in both team based and self-managed projects; dedicated to maintaining up to date industry knowledge and IT skills.

EXPERIENCE

FEB 2020 - PRESENT

ASSISTANT SYSTEM ENGINEER, TATA CONSULTANCY SERVICES, BANGALORE

- Maintained Git workflows for version control (Source code management).
- Developed and maintained automated CI/CD pipelines for code deployment using Jenkins.
- Provisioned servers and deployed features using Chef/Ansible.
- Built and deployed Docker containers for implementing Microservices architecture from monolithic architecture.

SEPT 2019 – DEC 2019

INTERN, CAPSYSTEMATIC TECHNOLOGIES PVT. LTD, BANGALORE

I worked on a project “Simple Banking System”. I started by creating UML diagrams to plan the project first and then started with the development. I built the project from scratch using Core Java and SQL. I learnt frameworks like Spring, Hibernate etc.
