Summary :

As I am passionate about UX design and research, I started exploring UX before entering into the professional course which I am currently pursuing. I have learned basic principles of UX design through the projects that I did during the initial phase of learning UX Design. As a motivated professional, I'm constantly striving to improve my techniques, expand my skill set and find new opportunities to grow. Each of my projects has provided me with this growth and allowed me to establish myself within this competitive industry. I believe that traditional values or beliefs are the basis for the evolution of the new modern world.

Skills :

Adobe Illustrator
Adobe XD
Adobe Indesign
Figma
Invision Studio
Wireframing
Prototyping
Interaction Design
Information Design

Work Experience - 1 :

Prabal Design | User Experience Design Intern
Jan 2022 - Present

Responsibilities :

In Prabal Design, I work with clients to understand their needs and requirements for their products. As an intern, I work on a complete UX process that includes design research, user analysis, information flow and architecture, wireframing, and mockups.

Work Experience - 2 :

Gigsy India | User Experience Design Intern
June 2021 - July 2021

Responsibilities :

In this internship, I worked on the interface and featured on the landing page of the company's site to gain more traffic on that. Similarly, I have created the interface for the analytics page of the user dashboard where all the statistics of users were displayed.

Work Experience - 2 :

Atos Syntel Pvt Ltd | Associate Consultant
March 2018 - August 2020

Responsibilities :

I was working as an associate consultant in Atos Syntel Pvt . Ltd. My domain of work was ETL and data warehousing. My key responsibilities were

- Communicating with Clients and Understanding user requirements
- Impact Analysis
- Applying the transformation rules
- Deploying the products to clients
