- JS

PROJECTS

1 - SHOPPING MANAGEMENT SYSTEM

This system is based on a concept to maintain all the records of a showroom. There is an Admin login panel from where admin can add, edit, view, remove record details. It's not time-consuming. It's easy to operate and understandable by owner.

2 TOURS & TRAVELS WEBSITE

This system gives tours related information like which places are tourist attractions, cities, and provinces. We have developed this website to provide a search platform where a tourist can find their tour places according to their choices.

TRAININGS

- ♦ gyandeep Summer Training in "C Programming & Data Structures" at Buddha Institute of Technology for 4 weeks in 2019.
