Agile/Scrum

INTEREST

Music, Cycling,

DIVAKAR R

COMPUTER SCIENCE

PROJECTS

Trax 2.3 App

- It's a Crm Project Built Using a Java Technology.

Flight_Reservation App -java

Used Concept Of The Web Services, Micro Services To Interact With
User data

Smart-Brain app -javascript

Used machine learning api to recognize face from picture
Used postgres database to store the user data

Gender Classifier

Implemented using python and other libraries

EXPERIENCE

Amazon- Associate

july-2021-2021

- Performing given task

Psa academy(unobitsolutions.com)- developer

Nov-20 to june 2021

- Developed api
- Exposing / consuming restful WebServices
- Using micro services approach to build the application

Uniq technologies- developer

july-2019 to aug-2019

- Worked in a machine learning project

Extra Curricular

Experience in Full stack development from—Testing Campus
Experience in machine learning --**Internship**
Arranged Blood Donation Camp

Certification in java programming language-**UDEMY**
