❖ ACADEMIC DETAILS

- **10 TH class**-SSC-**9.3CGPA**-Gandhi Nagar School-kadapa   **2014-2015**
  Board Of Secondary School Education-**REG-NUM:1522104197**-AP
- **12 TH class**- Intermediate-**76%-**vidhya sadana junior college   **2015-2017**
  Board Of Intermediate Education-**REG-NUM:1712214584**-AP.
- **BTech**-Electrical and Electronics Engineering-Kadapa- AP   **2017-2021**
  Sri Venkateshwara college of engineering -**8.40CGPA/10CGPA**
  University Name: Jawaharlal nehru Technological University-Ananthapuramu-515002
  REG-NUM:17KH1A0229.

❖ ACADEMIC PROJECTS

- **IMPROVEMENT OF ELECTRICAL CHARGER EFFICIENCY**   **2021-JAN**
  The main functioning is to improve charger efficiency by using bridge less cukconverter the main advantage is to reduce the copper lossess and power lossess and power factor should be maintained constant.
  Role: content checking as well as the element **connection checking** and designing new element connection.
  Responsibilities: **Risk taking** to check the element are Proper condition or not checking.
- **SPACE BASED SOLOR POWER PANNELS**   **2021-MARCH**
  We know that normal earth based solar power panels it absorbs the sun energy it will converted into electrical energy, but space based solar panels are arranged in space by inserted into satellites when sun energy will be captured and stored in dc form in battery than it will be transfer through the transmitter and receiver will be Receive this energy and converted in to ac form.
  Role: To give **the power point presentation and Slides creation** and maintained the all slides.

❖ EXPERIENCES

- **SOFTWARE DEVELOPER IN SAASANT INFOTECH**   **2022 -CURRENT**
  It is a one of the accounts simplified and customer supporting company SaaS is the software as a service and ant is a new technology inventing, I think it is a one of the good growthing company.
  Role: SOFTWARE DEVELOPER [full stack java].
  Responsibilites: To write a clean code in **java or c++ or c** depends on the client requirement project.
- **JAVA PROGRAMMER IN KODNEST TECHNOLOGIES-INTERNSHIP**   **2021JAN-2021SEP**
  In that 7 or 8 month of internship program am happily enjoyed because of the coordinator is good motivating me Why because of the I don't know how to write the clean code every time I will asking so many doubts but management was giving much supporting me in this training I learn the **Java,html,css3,javascript,jquery,spring**, Azure, **Jenkins, docker**, GitHub and basics of the sql and mangodb.
  Role: FULL STACK JAVA DEVELOPER.

❖ AWARDS AND ACHIVEMENTS

- In my **10th** standard I am the of the **entire district topper** and I got the **swamy Vivekananda book** in my schooling
- I am the one of the **youtube**r my channel name was **pesalakumar369**.
- I am the one of the **kharati player** I am participated in district level.
- I am written in **one novel** i, e **where is the life**!
- I am participated in quiz computations on **electrical machines and control systems**

❖ SKILLS

SKILLS	CERTIFICATIONS
Data Structures	Java programming
C++	Data structures and Algorithms-Great learning
Java-Jdbc-spring	Cyber security awareness program-Amazon
Html-css3-Jenkins-Docker-Github	solar power panels construction
Artificial intelligence	control system

❖ **HOBBIEES-**Playing chess-bathroom singer-writing novels-learning of new things-daliy meditation-creating youtube videos.
