Professional Skills

- IT Project Management
- Scrum Methodology
- SQL Databases
- Change Management
- IT Solution Development
- Release Management
- Requirement Analysis
- Client Handling
- Documentation Control

Technical Skills

- Linux
- Terraform
- Mac OS
- Jenkins
- AWS
- GitHub
- DevOps
- Kubernetes
- Docker

Academic Achievements

- Achieved **NCC GOLD MEDAL** | 10th
- Actively participated and organized the event PROJECT EXPO in MEXCEL2K17

Hobbies

- Playing Cricket
- Badminton
- Professional Networking

K VENKAT

SUMMARY

Around 2+ years of experience as a **Cloud Engineer**, Build Engineering and Release Management process, including end-to-end code configuration, building IT Solutions & deployments of artifacts and entire life cycle model in Enterprise Applications. Good understanding of SDLC with expertise on software Build/Release, Configuration management.

EDUCATION

Bachelor of Technology | IIIIER, Chennai | 2019

EXPERIENCE

| Nov 2019 - Present | **Cloud Engineer | Supunya Technologies** |

- Developed and implement solutions using AWS and Terraform applications, including large-scale data processing, computationally intensive statistical modeling, and advanced analytics.
- Work with cross-functional teams to identify and implement tools and processes to support continuous improvement
- Work with asset development teams to identify opportunities to create efficient solutions for data-related tasks
- Partnering with Engineering and Product teams to design and implement future systems, product improvements, and prevent system issues.
- Examine root cause statistics for trends in production issues and partner with clients to ensure preventative measures are implemented successfully
- Support the management of the training documentation repository, updating documentation as new functionality for tools and platforms are released

TECHNICAL KNOWLEDGE

- Cloud Applications, Cloud Development, Cloud Computing
- RedHat Linux, Debian Linux, Mac OS, AWS, DevOps, Terraform, Jenkins, GitHub
- Basic Knowledge On Docker & Kubernetes

ACADEMIC PROJECTS

- Study & Analysis of pipelines and tanks in **Hindustan Petroleum And Corporations Limited**
