ACADEMIC PROJECTS UNDERTAKEN

Project: **Online Goods and Services Tax Billing System using ASP.Net**

Description: There are two type rounds of contacts in our

project.Where a owner controls admin pages and user pages. Other user can also control only user pages.After the customer bought this thing and he can get a slip with GST (**Goods and Services Tax**) bill. We were having a team of three members and I was responsible for

development and we implemented this project in .NET framework using C#, HTML, CSS, JavaScript and SQL and overall we have taken near about 30 days.

EXTRA CURRICULAM ACTIVITIES

Member of college community and organized continuous 2 college event.
